Who am I? A simple enough question, one would think, but often a question never intentionally answered. We float along in the river called “life”, thinking we know where we are going when in reality we are just “going with the flow” ... directionless without intention, mostly unfulfilled and wondering “what next”. Easy enough to be swept up into the current of daily activity such that we take no time to think Until.... One day, we crash into the rocks and meet “life” face to face. It always happens at the most inconvenient time, without warning, and usually we are left broken, barely able to move while everything else in life spins out of control.

It's in this “do or die” moment that we arrive at the crossroad... Either face Life to “Unleash the Hero Within” or lose yourself in the swirl and mire of the world. The Hero's quest is a lonely journey that only you can make... filled with challenges and pitfalls. However, help is on the way..... Sandy has developed a roadmap to guide you using the energy

of 12 crystals archetypes. These crystals will magnify, focus, and enlighten the Hero's path enabling you to navigate the pitfalls and release the "chains" of regret, remorse and resentment. You can then be aligned to realize your potential, say "yes" to yourself and become more fully alive. Please join Sandy as she describes the steps and stones to "Unleash Your Hero Within"! A journey worth taking!

Are you seeking to really experience a deep feeling of connection in your heart with the Earth Mother? Connecting with the natural world from our heart center is now critical for humanity's evolution to progress into the higher realms of Spirit. Recognition and acknowledgement of Divine Essence within the Earth and all the Kingdoms she supports is paramount given all of the natural world exists within each of us.

The Music of the Plants, designed following 30+ years of research in exploring the innate intelligence of plants, is a device which converts the vibrational frequencies of plants directly into sound. This allows the plants to share their Divine Essence in real time through 'live' sound transmissions that promotes deep heart healing filling you with a true sense of peace. Get ready for a life changing experience with the Music of the Plants as your perception of plants and how you interact with them and the natural world overall will never be the same.

This amazing shift in perception, anchored in the heart center, is a gift provided by the plants. As a result of this experience, naturally your heart opens further to form deeper relationships with the Earth and all the Kingdoms (crystal, animal, elementals, etc). Through reciprocal relationships with the natural world, ultimately you begin to recognize fully your Divine Essence which connects you to all Life.

Following receipt of a Master's Degree in Environmental Science and a successful professional career as a Marine Environmental Consultant, Lisa resigned from the corporate world to fulfill her soul's calling as a vibrational healer. As a Light Resonant Channel, Lisa brings forth the highest frequency of the Divine through her own unique connection with Source to heal trauma on the physical, mental and emotional levels. She works in a co-creative partnership with the Earth, Elementals, Crystal and Animal Kingdoms. Lisa is certified in the PAHT technique and has successfully completed a 6 month dedicated and in depth crystal healing / resonance program. She performs light resonant healing sessions within a charged crystalline grid. Most recently she was initiated by the Plant Kingdom and directed to work co-creatively with plants to bring deeper heart healing through sound vibrations (music) that the plants themselves emit. This facilitates a deep healing to restore humanity's connection to the Earth Mother and all the kingdoms she supports.
