A. THE SECRET OF THE THREE "ONLY" THINGS -- Robert Moss. Free lecture. Booksigning. (Room 110) www.mossdreams.com

The law of attraction says that whatever we think or feel strongly, the universe brings to us. If we carry around feelings of failure or dread, the world will give us lots of reasons to feel those things. If we follow our passions and are willing to make a leap of faith, the universe will bring opportunities and support in magical ways. Successfully working with the law of attraction, however, requires awareness about which part of us is doing the asking. We need a practice that engages the body and the larger self, not just the calculating ego.

In this inspiring lecture, Robert Moss, author of *The Three "Only" Things*, explains how we already have the tools we need for working with our unconscious mind in this process. They are the three things we too often dismiss as "only" a dream, "only" a coincidence, and "only my imagination." He offers fresh and exciting ways we can work with these extraordinary sources of wisdom to create the lives we truly desire.

Robert Moss is a world authority on dreams, a best-selling novelist, and a former foreign correspondent and professor of ancient history. His latest book is *The Three "Only" Things: Tapping the Power of Dreams, Coincidence and Imagination*.
